MATERIALS SCIENCE AND ENGINEERING A VOL. A124 NO. 1 APRIL 10 1990

CONTENTS

Preface v

Characterization of entrapped gases in rapidly solidified powders 1
B. H. Rabin, G. R. Smolik and G. E. Korth (Idaho Falls, ID, U.S.A.)

Particle size measurement of inert-gas-atomized powder 9
F. S. Biancaniello, J. J. Conway, P. I. Espina, G. E. Mattingly and S. D. Ridder (Gaithersburg, MD, U.S.A.)

Analytical method for inert gases in alloy powders 15
G. R. Smolik and J. E. Delmore (Idaho Falls, ID, U.S.A.)

Real-time particle size analysis during inert gas atomization 21
F. Biancaniello, C. Presser and S. D. Ridder (Gaithersburg, MD, U.S.A.)

Superconducting $YBa_2Cu_3O_x$ particulate produced by total consumption burner processing 31
B. D. Merkle, R. N. Kniseley, F. A. Schmidt and I. E. Anderson (Ames, IA, U.S.A.)

Intrinsic features of Fe–40wt.%Ni powders prepared by centrifugal or vacuum gas atomization 39
J. E. Flinn and G. R. Smolik (Idaho Falls, ID, U.S.A.)

Microimaging and off-line microscopy of fine particles and inclusions 49
A. J. Schwoeble, H. P. Lentz, W. J. Mershon and G. S. Casuccio (Monroeville, PA, U.S.A.)

A technique for the preparation of powders for examination by transmission electron microscopy 55
M. M. Morra (Cambridge, MA, U.S.A.), J. M. Morra and R. R. Biederman (Worcester, MA, U.S.A.)

Characterization of Al_2O_3–ZrO_2 powders produced by electrohydrodynamic atomization 65
V. Jayaram, C. G. Levi, T. Whitney and R. Mehrabian (Santa Barbara, CA, U.S.A.)

Microstructural analysis of rapidly solidified Ti–Al–X powders 83
C. McCullough, J. J. Valencia, C. G. Levi and R. Mehrabian (Santa Barbara, CA, U.S.A.)

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

MATERIALS SCIENCE AND ENGINEERING A VOL. A124 NO. 2 APRIL 20, 1990

CONTENTS

Bauschinger effect in particulate SiC–6061 aluminum composites 103
M. Taya (Sendai, Japan), K. E. Lulay (Seattle, WA, U.S.A.), K. Wakashima (Midori-ku, Japan) and D. J. Lloyd (Kingston, Ont., Canada)

Deformation of as-cast LiF–22mol.%CaF_2 hypereutectic salt between 500 and 1015 K. 113
S. V. Raj and J. D. Whittenberger (Cleveland, OH, U.S.A.)

High temperature creep behaviour and microstructure development of AISI 304L stainless steel 125
R. Zauter, F. Petry, H.-J. Christ and H. Mughrabi (Erlangen, F.R.G.)

The nature of the elastic rebound of a hard ball impacting on ductile, metallic target materials 133
Y. Tirupataiah, B. Venkataraman and G. Sundararajan (Hyderabad, India)

Ineffective lengths in metal matrix composites 141
Y. Leng and T. H. Courtney (Charlottesville, VA, U.S.A.)

High temperature mechanical behavior of porous open-cell Al_2O_3. 151
K. C. Goretta, R. Brezny, C. Q. Dam, D. J. Green (University Park, PA, U.S.A.), A. R. de Arellano-Lopéz and A. Dominguez-Rodriguez (Sevilla, Spain)

Constitutive relationships for the time-dependent deformation of precipitation-hardened metals 159
B. A. Senior (Leatherhead, U.K.)

Effect of microstructure and temperature on high cycle fatigue of powder metallurgy Astroloy 171
T. Isomoto and N. S. Stoloff (Troy, NY, U.S.A.)

Cyclic deformation behavior of Cu–16at.%Al single crystals
I: strain burst behavior 183
S. I. Hong and C. Laird (Philadelphia, PA, U.S.A.)

An approach to developing a hot-work die steel for high-temperature application. 203
C.-S. Xie, P.-Z. Sun and J.-S. Zhao (Wuhan, China)

A study of the isothermal section of the W–Ni–Co system at 1300 °C 211
Z.-P. Jin, W.-P. Gan and C. Qiu (Changsha, China)

Effects of bond coat pre-aluminizing treatment on the properties of ZrO_2–8wt.%Y_2O_3/Co–29Cr–6Al–1Y thermal barrier coatings. 215
B. C. Wu, C. H. Chao, E. Chang and T. C. Chang (Tainan, Taiwan)

Microstructural and mechanical properties of rapidly solidified Cu–Ni–Sn alloys 223
L. Deyong, R. Tremblay and R. Angers (Ste. Foy, Quebec, Canada)

The role of solidus velocity in the feeding behaviour of Al–7Si–0.3Mg alloy plate castings 233
Y. W. Lee, E. Chang (Tainan, Taiwan) and C. F. Chieu (Kaohsiung, Taiwan)

Martensitic transformation in ultrafine Fe–Ni powders 241
Y.-H. Zhou, M. Harmelin and J. Bigot (Vitry-sur-Seine, France)

Melting characteristics, glass-forming ability and stability of Ni–Pd–Si and Ni–Pd–TM–Si alloys in the concentration range 10–22 at.% Si 251
A. Rabinkin (Parsippany, NJ, U.S.A.)

Basal plane orientation of polyacrylonitrile fibers in a commercial polyacrylonitrile–pitch carbon–carbon composite 259
J. Don and C. P. Ju (Carbondale, IL, U.S.A.)

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

(continued on inside back cover)

Submission of papers

Manuscripts for the main part of the journal should be submitted to the Editor-in-Chief, Professor H. Herman, or for authors in Japan to Professor M. Taya:

Professor Herbert Herman
Department of Materials Science and Engineering
State University of New York at Stony Brook
Long Island, NY 11794, U.S.A.
Fax: +1 (516) 632 8052

Professor Minoru Taya
Department of Materials Processing,
Faculty of Engineering
Tohoku University
Sendai 980, Japan
Fax: +81 (22) 268 2949

Manuscripts for the Letters Section should be submitted as follows:

For authors in Europe except Great Britain

Professor Haël Mughrabi
Institut für Werkstoffwissenschaften
Universität Erlangen–Nürnberg
Martensstrasse 5, D-8520 Erlangen, F.R.G.
Fax: +49 (9131) 85 7504

For authors in Japan

Professor Minoru Taya
Department of Materials Processing,
Faculty of Engineering
Tohoku University
Sendai 980, Japan
Fax: +81 (22) 268 2949

For authors in North and South America, Great Britain and the rest of the world

Professor Herbert Herman
Department of Materials Science and Engineering
State University of New York at Stony Brook
Long Island, NY 11794, U.S.A.
Fax: +1 (516) 632 8052

CONTENTS *(continued)*

CONFERENCE CALENDAR 267

LETTERS

Structure and properties of directionally solidified Al–Si hypereutectic alloys L1
F. Yilmaz (Adapazari, Turkey)

Hardness of fatigued copper polycrystals and their relation to their dislocation structure. L7
K. Obrtlík, J. Březina and J. Polák (Brno, Czechoslovakia)

Cyclic hardening behaviour of polycrystalline aluminium under tension–compression L11
A. Giese, A. Styczynski and Y. Estrin (Hamburg, F.R.G.)

An analysis of diffusion-induced porosity in Cu–Ni laminate composites L15
I. D. Choi, D. K. Matlock and D. L. Olson (Golden, CO, U.S.A.)

Estimation of twin wall energy by measurement of twin spacing L19
L. S. Chumbley, M. J. Kramer, M. R. Kim and F. C. Laabs (Ames, IA, U.S.A.)

Submission of an article for publication implies the transfer of the copyright from the author(s) to the publisher and entails the author(s) irrevocable and exclusive authorization of the publisher to collect any sums or consideration for copying or reproduction payable by third parties.

Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.

For Material Subject to U.S. Copyright Law

Special regulations for readers in the U.S.A.

This journal has been registered with the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, U.S.A. Consent is given for copying of articles for personal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1982 may be copied for a per-copy fee of U.S. $2.50, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes or for creating new collective works. Special written permission must be obtained from the publisher for such copying.
